HTG EUROPE

820 RC ULTRA
22,3 kW / 380 V

Working Width	820 mm / 32.28 in
RPM	350 – 1.950
Number of Grinding Discs	3 or 4
Diameter of Grinding Disc	Ø 278 mm / 10.94 in
Mode of Operation	remote-controlled / walk behind
Water Tank	25 L
Vacuum Connection	80 mm / 3.15 in

680 RC ULTRA
11 kW / 380 V

Working Width	680 mm / 26.77 in
RPM	350 – 1.950 U/min
Number of Grinding Discs	3 or 4
Diameter of Grinding Disc	Ø 230 mm / 9.06 in
Mode of Operation	remote-controlled / walk behind
Water Tank	20 L
Vacuum Connection	80 mm / 3.15 in

680 ULTRA
11 kW / 380 V

Working Width	680 mm / 26.77 in
RPM	350 – 1.950 U/min
Number of Grinding Discs	3 or 4
Diameter of Grinding Disc	Ø 230 mm / 9.06 in
Mode of Operation	remote-controlled / walk behind
Water Tank	20 L
Vacuum Connection	80 mm / 3.15 in

550 ULTRA
5,5 kW / 380 V

Working Width	550 mm / 21.65 in
RPM	350 – 1.500 U/min
Number of Grinding Discs	3
Diameter of Grinding Discs	Ø 200 mm / 7.87 in
Water Tank	15 L
Vacuum Connection	50 mm / 1.97 in

460 ULTRA
2,2 kW / 230 V

Working Width	460 mm / 18.11 in
RPM	350 – 1.500 U/min
Number of Grinding Discs	3
Diameter of Grinding Discs	Ø 200 mm / 7.87 in
Water Tank	15 L
Vacuum Connection	50 mm / 1.97 in

CG 250 ULTRA
5,5 kW / 380 V

Working Width	250 mm / 9.84 in
RPM	350 – 2.000 U/min
Number of Grinding Discs	1
Diameter of Grinding Discs	Ø 250 mm / 9.84 in
Water Tank	–
Vacuum Connection	50 mm / 1.97 in

250 ULTRA
2,2 kW / 230 V

Working Width	250 mm / 9.84 in
RPM	1.500 U/min
Number of Grinding Discs	1
Diameter of Grinding Discs	Ø 250 mm / 9.84 in
Water Tank	–
Vacuum Connection	50 mm / 1.97 in

HTG EUROPE: YOUR PARTNER FOR PIONEERING CONCRETE FLOOR TECHNOLOGY

As a **trusted service partner** for floor grinding technology and surface preparation equipment across Europe, **HTG Europe** represents the pinnacle of innovation in concrete floor processing.

Being part of the globally established HTG Group, we bring over **30 years of experience** and an extensive **international network** spanning **over 140 countries**. Our solutions combine precise European engineering with the latest technology to ensure the **unmatched efficiency** and **quality**.

Our machines and tools are **specifically tailored** to meet the demands of the European market and comply with the **highest safety and performance standards**. With a **strong focus on excellent customer service**, we are setting new standards in the industry.

>> Contact us NOW to explore HTG Europe's floor grinders and the benefits of partnering with us!

✓ EUROPEAN STANDARDS & TECHNOLOGY

HTG machines combine top European safety and performance standards with decades of expertise. Over 20,000 machines built in recent years showcase our industry-leading technology.

✓ CUSTOM SOLUTIONS & DEALER SUPPORT

HTG Europe offers customizable floor grinding machines tailored to your customers' needs. Logo and color can be adjusted upon request. With a top-notch customer service, we set a new standard.

WHY PARTNER WITH HTG EUROPE:

✓ TRAINING & SUPPORT

HTG Europe offers extensive training and support for you and your customers, ensuring you have everything needed to sell the best floor grinding machines.

✓ SUSTAINABILITY & ENVIRONMENT

HTG Europe is committed to sustainability, designing machines that optimize material use, reduce energy consumption and minimize dust emissions for long-term efficiency.

HTG'S ADDITIONAL HIGH-QUALITY EQUIPMENT* > > > >

*Vacuum systems, shot blasting systems, floor milling machines, large area grinders and much more.

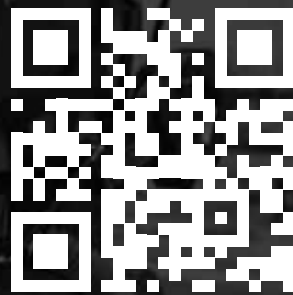

INNOVATIVE DRIVE TECHNOLOGY

The **HTG Europe high-tech machines** are distinguished by a perfect balance of **drive, motor and chassis**. The **powerful drive**, designed without belts, ensures an ideal power flow and smooth operation, making this machine series **exceptionally powerful**. The machines

consistently minimize **operating, repair, and wear costs**, while meeting the requirements for **low vibration levels** to ensure long service life. The **remote-controlled drive systems** of the **680 RC Ultra** and **820 RC Ultra models** offer added **ergonomic comfort** during operation.
